Good job! Your usage of transitional phrases is within an acceptable range! Nevertheless, you may still benefit from reading the info below.

One sign of an excellent writer is the use of transitional phrases. Transitional words and phrases (e.g. therefore, consequently, furthermore) contribute to the cohesiveness of a text and allow the sentences to flow smoothly. Without transitional phrases, a text will often seem disorganized and will most likely be difficult to understand. When these special words are used, they provide organization within a text and lead to greater understanding and enjoyment on the part of the reader.

These words and phrases fall under a few grammatical categories:

- Conjunctions: *but, provided, and, although*
- Prepositional phrases: *in addition to, in conclusion*
- Adverbs: *also, however, nevertheless*

Transitional phrases may be used in various places in a text:

- between paragraphs
- between sentences
- between sentence parts
- within sentence parts

For example, you could write:

Form and function are central themes in Biology. However, knowing the structure of something does not necessarily reveal its function.

The word **'however'** contributes to greater unity or cohesion between sentences.

Variety is the hallmark of a good writer and this is especially true in regards to sentence starts. Creatively arranging sentence beginnings breaks up the monotony and choppy style associated with a simple noun phrase followed by a verb. This does NOT mean that all sentences should begin with prepositional phrases, transitions, or adverbial phrases, but it does mean that you should be certain to pay attention to sentence starts and deliberately edit for variety if necessary.

The grade above is NOT complete! We do not actually use a crystal ball to generate your grade. Instead, this grade takes into account spelling, grammar, word choice, style, vocabulary, and more; but it does NOT examine the *meaning* of your words, how your ideas are structured, or how well your arguments are supported. We should also mention that our automated grader doesn't **always** get things right. So, please consider this grade to be one facet of your paper's overall grade.
